The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Joyce 3581906, Dean et al. 3905484 or Gold 4759449 in view of either Eddy et al. D416583, Metzger et al. 4763795 or Dziersk et al. 5251744.

Joyce, Dean et al. or Gold all teach supporting base integral with a wall and a multiplicity of divider panels attached by means of tongue-and-groove joints to the supporting base. Eddy et al., Metzger et al. and Dziersk et al. all teach a document-rack structure with a supporting base that is a cylindrical surface with the concavity pointing downwards. To provide either Joyce or Dean et al. or Gold with a curved supporting base as taught by either Eddy et al. or Metzger et al. or Dziersk et al. for the purpose of aiding in the easy viewing and removal of documents would have been obvious for one having ordinary skill in the art at the time of the invention.

The prior art made of record and not relied upon at this time is considered pertinent to applicant's disclosure and cited on the attached PTO 892.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sarah Purol whose telephone number is 571-272-6834. The examiner can normally be reached on Tuesday -Friday during normal business hours.
